After breakfast, check-out from the hotel, post which we will take you to Praslin via a short 40 minutes ferry ride. Praslin is the more laid-back island with isolated beaches and turquoise blue water.

You have the whole day at leisure to explore Praslin today. The beaches around the island are all dreamlike, picture postcards of white sand and shallow, turquoise seas, with famous names like Anse Lazio and Anse Geogette frequently making top ten lists of best beaches and most beautiful destinations worldwide. We would definitely recommend visiting either or both the beaches.

In the evening you could take a sunset cruise to experience a unique and magical atmosphere with the sense of serenity this time of the day brings, when the dusk creeps in on the paradise islands of Seychelles! Sail across the coast for the difference in perspective the island presents by twilight or simply gaze over the horizon at the golden sunset and multitude of colors that lights the evening sky. Day 5 – DAY AT LEISURE

After breakfast, you have the rest of the day at leisure. We recommend taking our 3 island nature tour today or a tour to the surreal La Digue.

In our 3 island nature tour, we visit Cousin Island, one of the smaller granitic islands with it's highest point been 58 meters above Sea level. In 1975,

the island was given protection by the Government and became a Special Reserve for seabirds and land birds unique to Seychelles. There is an estimated million seabirds that nest/ breed each year. Continue by boat to Curieuse Island, where you will visit the old Doctor's House which has been turned into a museum and the pen for rearing giant land tortoises. . Discover the multitudes of corals and fish and if you are lucky swim, with the turtles and the eagle rays. There are no jetties, so be prepared for wet landing.

If you take a tour of La digue, be prepared to be amazed by the sheer beauty of this island. La Digue is the fourth largest island of the Seychelles group. Here, time

stands still and the use of bicycles and ox-cart are quite prevalent. With a population of just over 2000 and a rich flora, La Digue is home to one of the rarest birds on earth – the Paradise Flycatcher. Known for preserving traditions, the island's 'trademark' is the must-visit l'Union Estate, still sporting its traditional coconut oil mill, the old copra kiln and a fine colonial house set amongst vanilla and coconut plantations.

As you stroll along, pet the gentle giant land tortoises before settling down on the picturesque Anse Source d'Argent, voted as one of the most beautiful beaches in the world. Set against exceptional rock formation, the place remains a source of inspiration for artists and will simply take away your breath. Relax and take memorable pictures of one of the few natural places in the world where you can hear your heart beating!
